BUTTE DOCTOR IN F. D. R. PARTY

Dr. Shanley Returns From Meeting With President on Montana Trip.

President Franklin D. Roosevelt's health is apparently as superb as when he entered the White House nearly five years ago today, said Dr. T. J. B. Shanley, Butte physician and surgeon, who rode on the President's special train from Havre to Glasgow.

Interested professionally, Dr. Shanley said that Roosevelt's "grand physical condition" is mostly due to the President's ability to drop the cares and worries of his office, and rest.

President Roosevelt asked Dr. Shanley, who has been a guest in the White House, about the mining industry in Butte and expressed interest as to whether miners are finding employment in the Mining city.

"I shall always recall with great pleasure the warmth of Butte's reception when I was there in 1932," the President told the Butte physician.

President Roosevelt told Dr. Shanley that Yellowstone National park impressed him with its majestic beauty, enhanced by a fall of snow while party was at the park.

Dr. Shanley boarded the train at Havre Saturday night. His trip was in response to a telegram received Saturday from Marvin McIntyre, secretary to the President.
